How it works

- The **OneLaundry** payment terminal by **Microtech Srl** is a payment station for managing **self-service laundries**.

- It uses the latest, **high-quality components** to deliver maximum performance and reliability.

- Thanks to a **modern, intuitive interface**, it makes management easy for both users and operators.

- **Payment** can be made by banknotes, coins, loyalty cards, POS or Satispay, or with **Save Time Pay**: scan the QR code, pay and start the service.

- Thanks to the **remote management system**, operators can have **full control of the laundry even from a distance**.

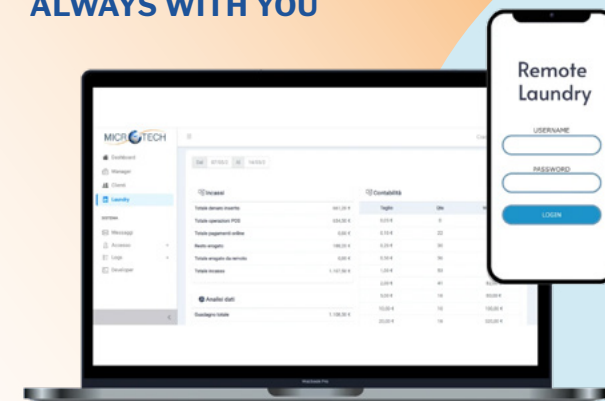

ONELAUNDRY TECH

Ideal for self-service laundries, barracks, apartment buildings and any facility requiring an affordable, practical and easy-to-install system.
Reduces the risk of theft by eliminating cash handling.

Remote Laundry

**YOUR LAUNDRY,
ALWAYS WITH YOU**

With Remote Laundry, you can control and manage your business from anywhere.

With Remote Laundry, you can:

- ✓ **Manage your laundry's accounting**
- ✓ **Start services remotely**
- ✓ **View operation history**
- ✓ **Monitor device status**
- ✓ **Change settings**
- ✓ **Analyse performance data**
- ✓ **Issue loyalty cards remotely**
- ✓ **Dispense change remotely**

What the laundry's customers can do:

- ✓ **Pay for services directly from their smartphone — no app required.**
